

## Future Energy Conference

The Business of Renewable Energy & Efficiency in the Northwest

April 21-22, 2010

Oregon Convention Center, Portland, OR

### Presented By

Northwest Environmental Business Council  
Northwest Energy Efficiency Council  
Portland Business Journal

Full information & Registration at: [www.futureenergyconference.com](http://www.futureenergyconference.com)

**An Unmatched Forum for Learning, Networking, and Business Development.** This business-to-business conference brings together project developers, service and equipment providers, energy end users, utilities, government, and others involved in building the new energy economy.

**Expanded Content and Format.** Returning for its fourth year, this conference is *the* Northwest event addressing the business side of energy. For 2010, the conference is being extended to two days with an expanded trade show. Educational tracks include developing electricity and bioenergy projects, implementing energy efficiency in industry and buildings, and developing the regional energy industry supply chain.

- Renewable energy development
- Bioenergy opportunities
- Efficiency in buildings and industry
- Supplying the energy industry

### Plus Featured Speakers

Opening Address by **Governor Ted Kulongoski**

The “**Governor’s Sustainability Awards**”- with Ore. Secretary of State Kate Brown  
**Gil Sperling**, Senior Policy Advisor, US Department of Energy

**Marty Sedler**, Director of Global Utilities & Infrastructure, Intel Corporation

**Margie Harris**, Executive Director, Energy Trust of Oregon

## Why Attend

- Learn the keys to successfully design, finance, and build renewable energy projects.
- Learn how energy efficiency can enhance business profitability – and how to implement & pay for it.
- Explore whether your business or community can be a host for energy generation projects.
- Explore opportunities for your business in supplying the energy industry.
- Gain an up-to-date perspective on the state of the industry and emerging technologies.
- Learn about supportive programs and incentives.
- Explore how to do business in the Northwest – and with whom.
- Meet and network with colleagues, partners, and customers.

## Who Should Attend

- Project developers & potential project owners
- Industrial and commercial facility & operations managers
- Building designers, architects & owners
- Equipment & technology providers
- Engineers, consultants, attorneys & other service providers
- Energy investors & financiers
- Utility managers
- Economic development professionals
- Government agency representatives
- Those interested in becoming part of this industry
- Others promoting a strong regional economy
